

# Rally Against Nancy Skinner's SB-82

Senator Skinner proposed a very dangerous bill “SB-82 Petty Theft”. If it was passed, robbery without the use of weapon or Great Bodily Injury (GBI) would be just regarded as a misdemeanor. In layman’s term, GBI means extremely serious injury. The decision is up to the discretion of the jurors who usually cannot regard injury such as bloody nose, black eye, or bruises, as GBI. SB82 is so broad that it treats many robberies with the use of force as just misdemeanor cases. Women, kids, seniors, and Asian Americans will be most victimized.

SB82 seriously endangers everybody in California and is disastrous! This bill will also retroactively vacate the sentence or resentence numerous robbers convicted prior to the passage of the bill, thus worsening California’s finance and demoralizing district attorneys and police.
